

The table at right indicate hex screw's dimension and suitable hex key sizes. Please make it as reference for usage.

Part of Hex Key Wrench

JETECH T type Hex Key Handle adopted exceptional patented design, with comfortable hand gripping, no stress between two fingers at use. And fiber glass reinforced Nylon plastic obtain high torsion.

Matching Size Between Hex Key and Screw

	Pressure Plug	Button Head Cap Screw	Flat Head Cap Screw	Socket set Screw	Socket Head Cap Screw
					
1.5				M3	M1.6 M2
2		M3	M3	M4	M2.5
2.5		M4	M4	M5	M3
3		M5	M5	M6	M4
4		M6	M6	M8	M5
5	$\frac{1}{8}$	M8	M8	M10	W $\frac{1}{2}$ M6
6	$\frac{1}{4}$	M10	M10	M14	W $\frac{1}{2}$ M8
8	$\frac{3}{8}$	M12	M12	M16	W $\frac{1}{2}$ M10
10	$\frac{1}{2}$	M14 M16	M14 M16	M18 M20	W $\frac{1}{2}$ M12

25° Upwards Inclined Use

Ball Point Hex Key head can insert into hex screw at maximum angle 25° which is convenient for use at narrow space without effect on its high torsion.
